Professional Summary

Front End Engineer and Jr Creative Developer with 2 years of experience in web development focused on building modern, interactive, and high-performance web solutions. Experienced working with technologies such as Bootstrap, Tailwind CSS, Lit, GSAP, and React, prioritizing performance and component reusability. Knowledgeable in API integration and consuming Back End services for dynamic data visualization and management. Interested in contributing to web solutions where I can participate in both technical implementation and decision-making related to Front End architecture and user experience.

Technical Skills

Front End

HTML, CSS, JavaScript (ES6+), Bootstrap, Tailwind, Lit, GSAP, React, TypeScript, REST API Consumption, Git, GitHub, Vercel, Render

Back End

Node.js, Express.js, Axios, Supabase, PHP, SQL
